

Drawing by Paula Rebsom

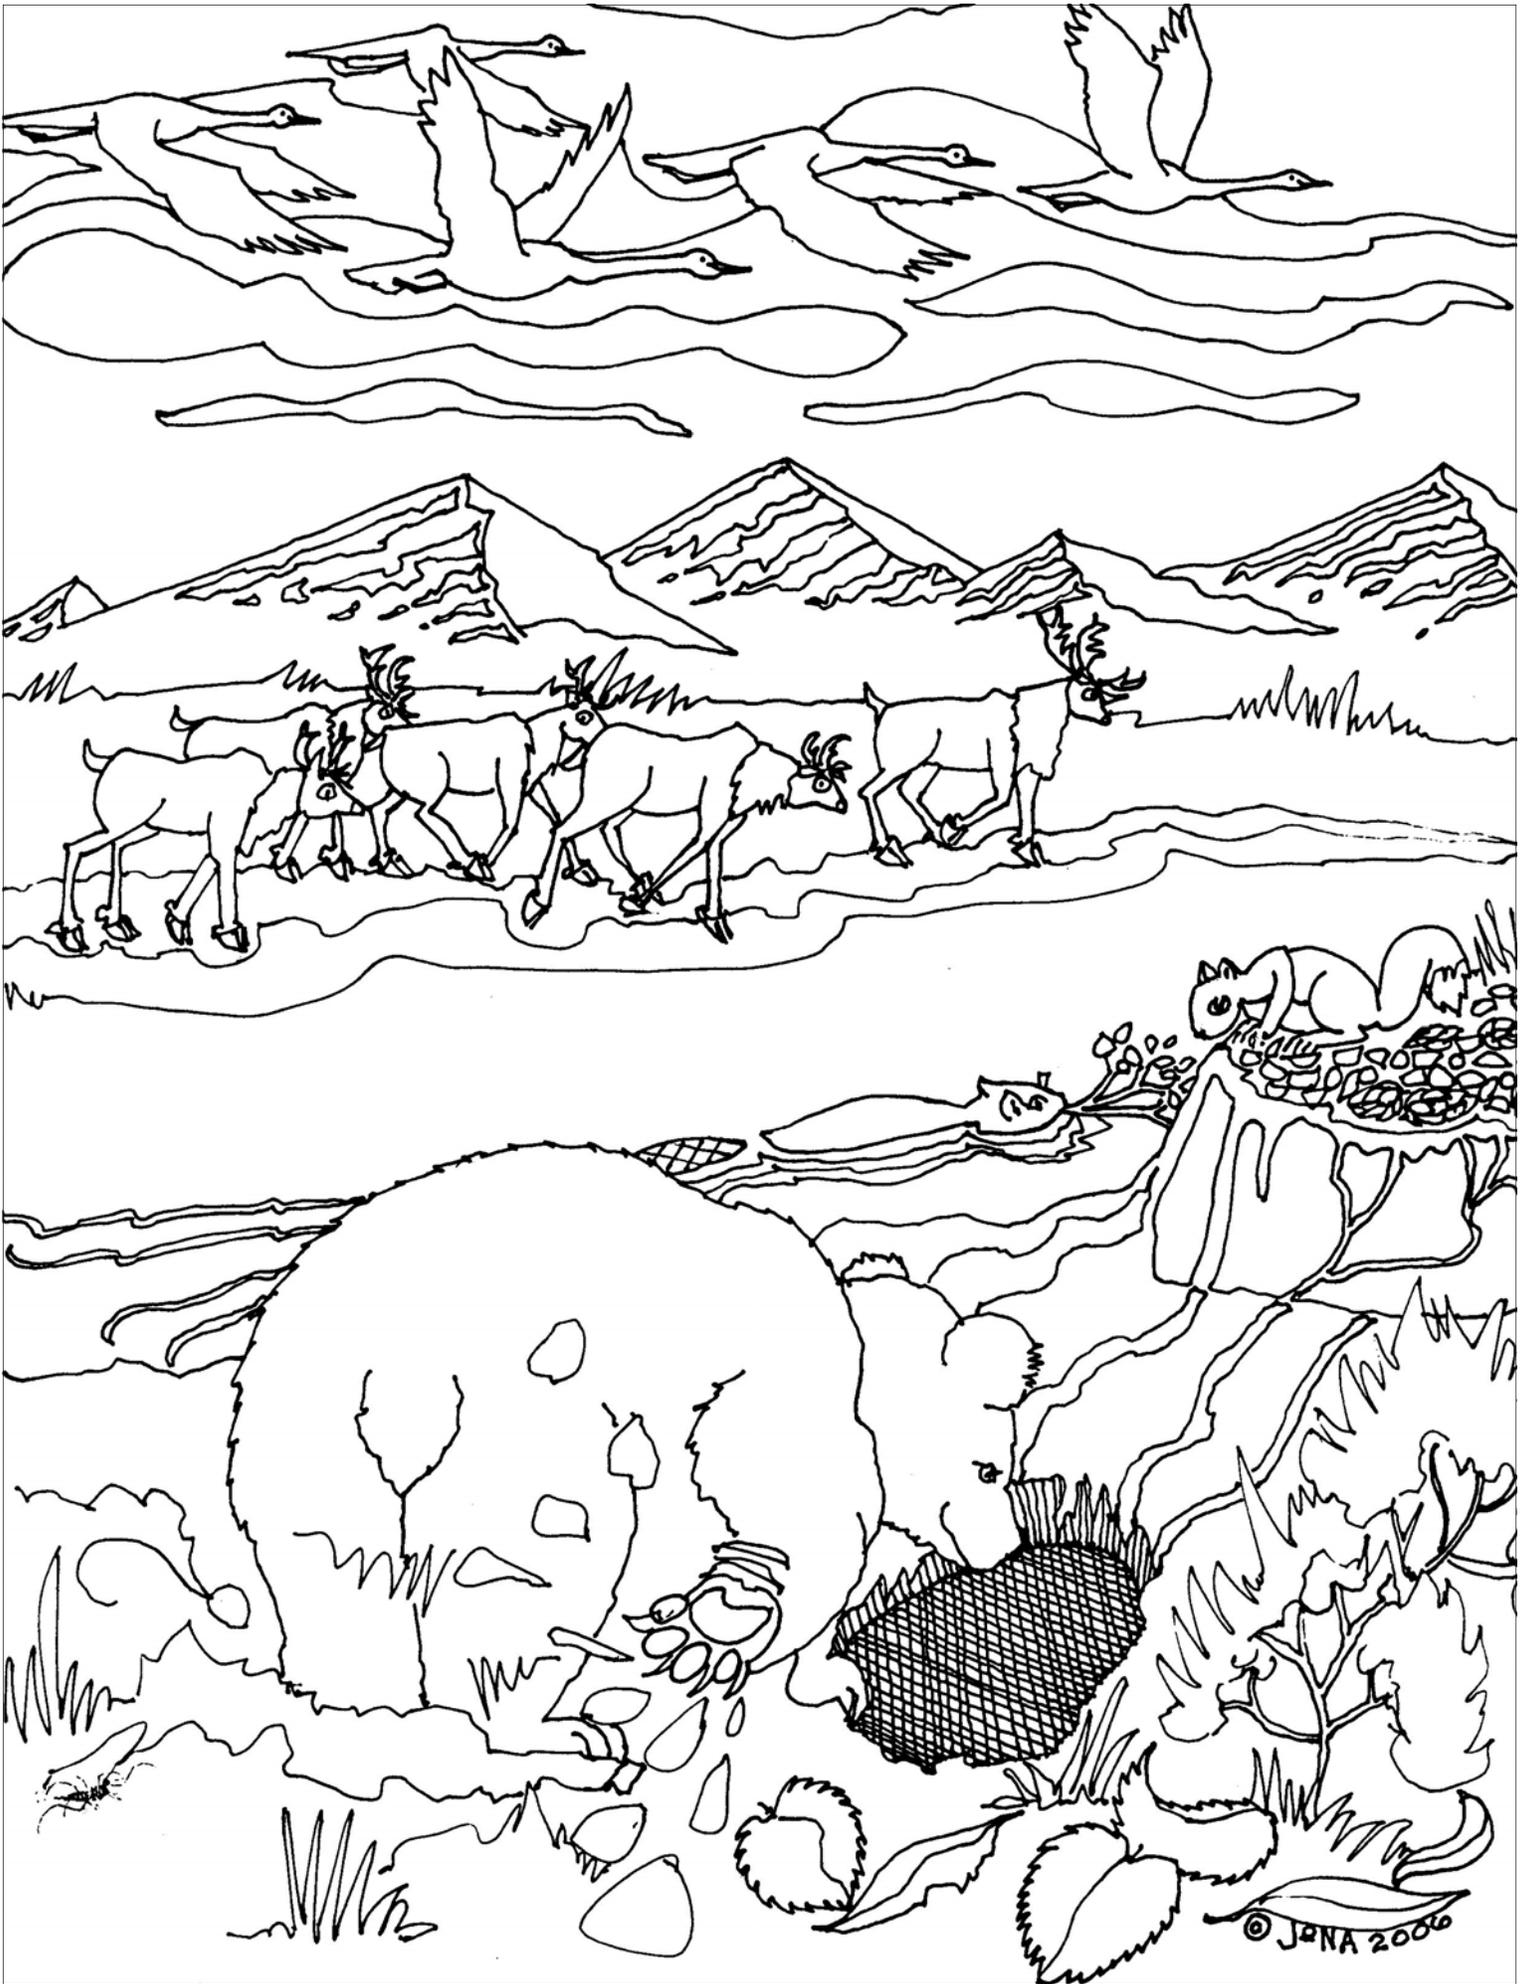

What color is the Casa Grande? Can you color the ruins to match the color they are today? Do you think the roof over the ruins should be the same color or something different? What color is the ground surrounding the ruins? Try to color the picture the way you think it should be done.

Can you find at least 4 different animals? Circle them. Do you see two different kinds of cactus? Which is found **only** in the Sonoran Desert?

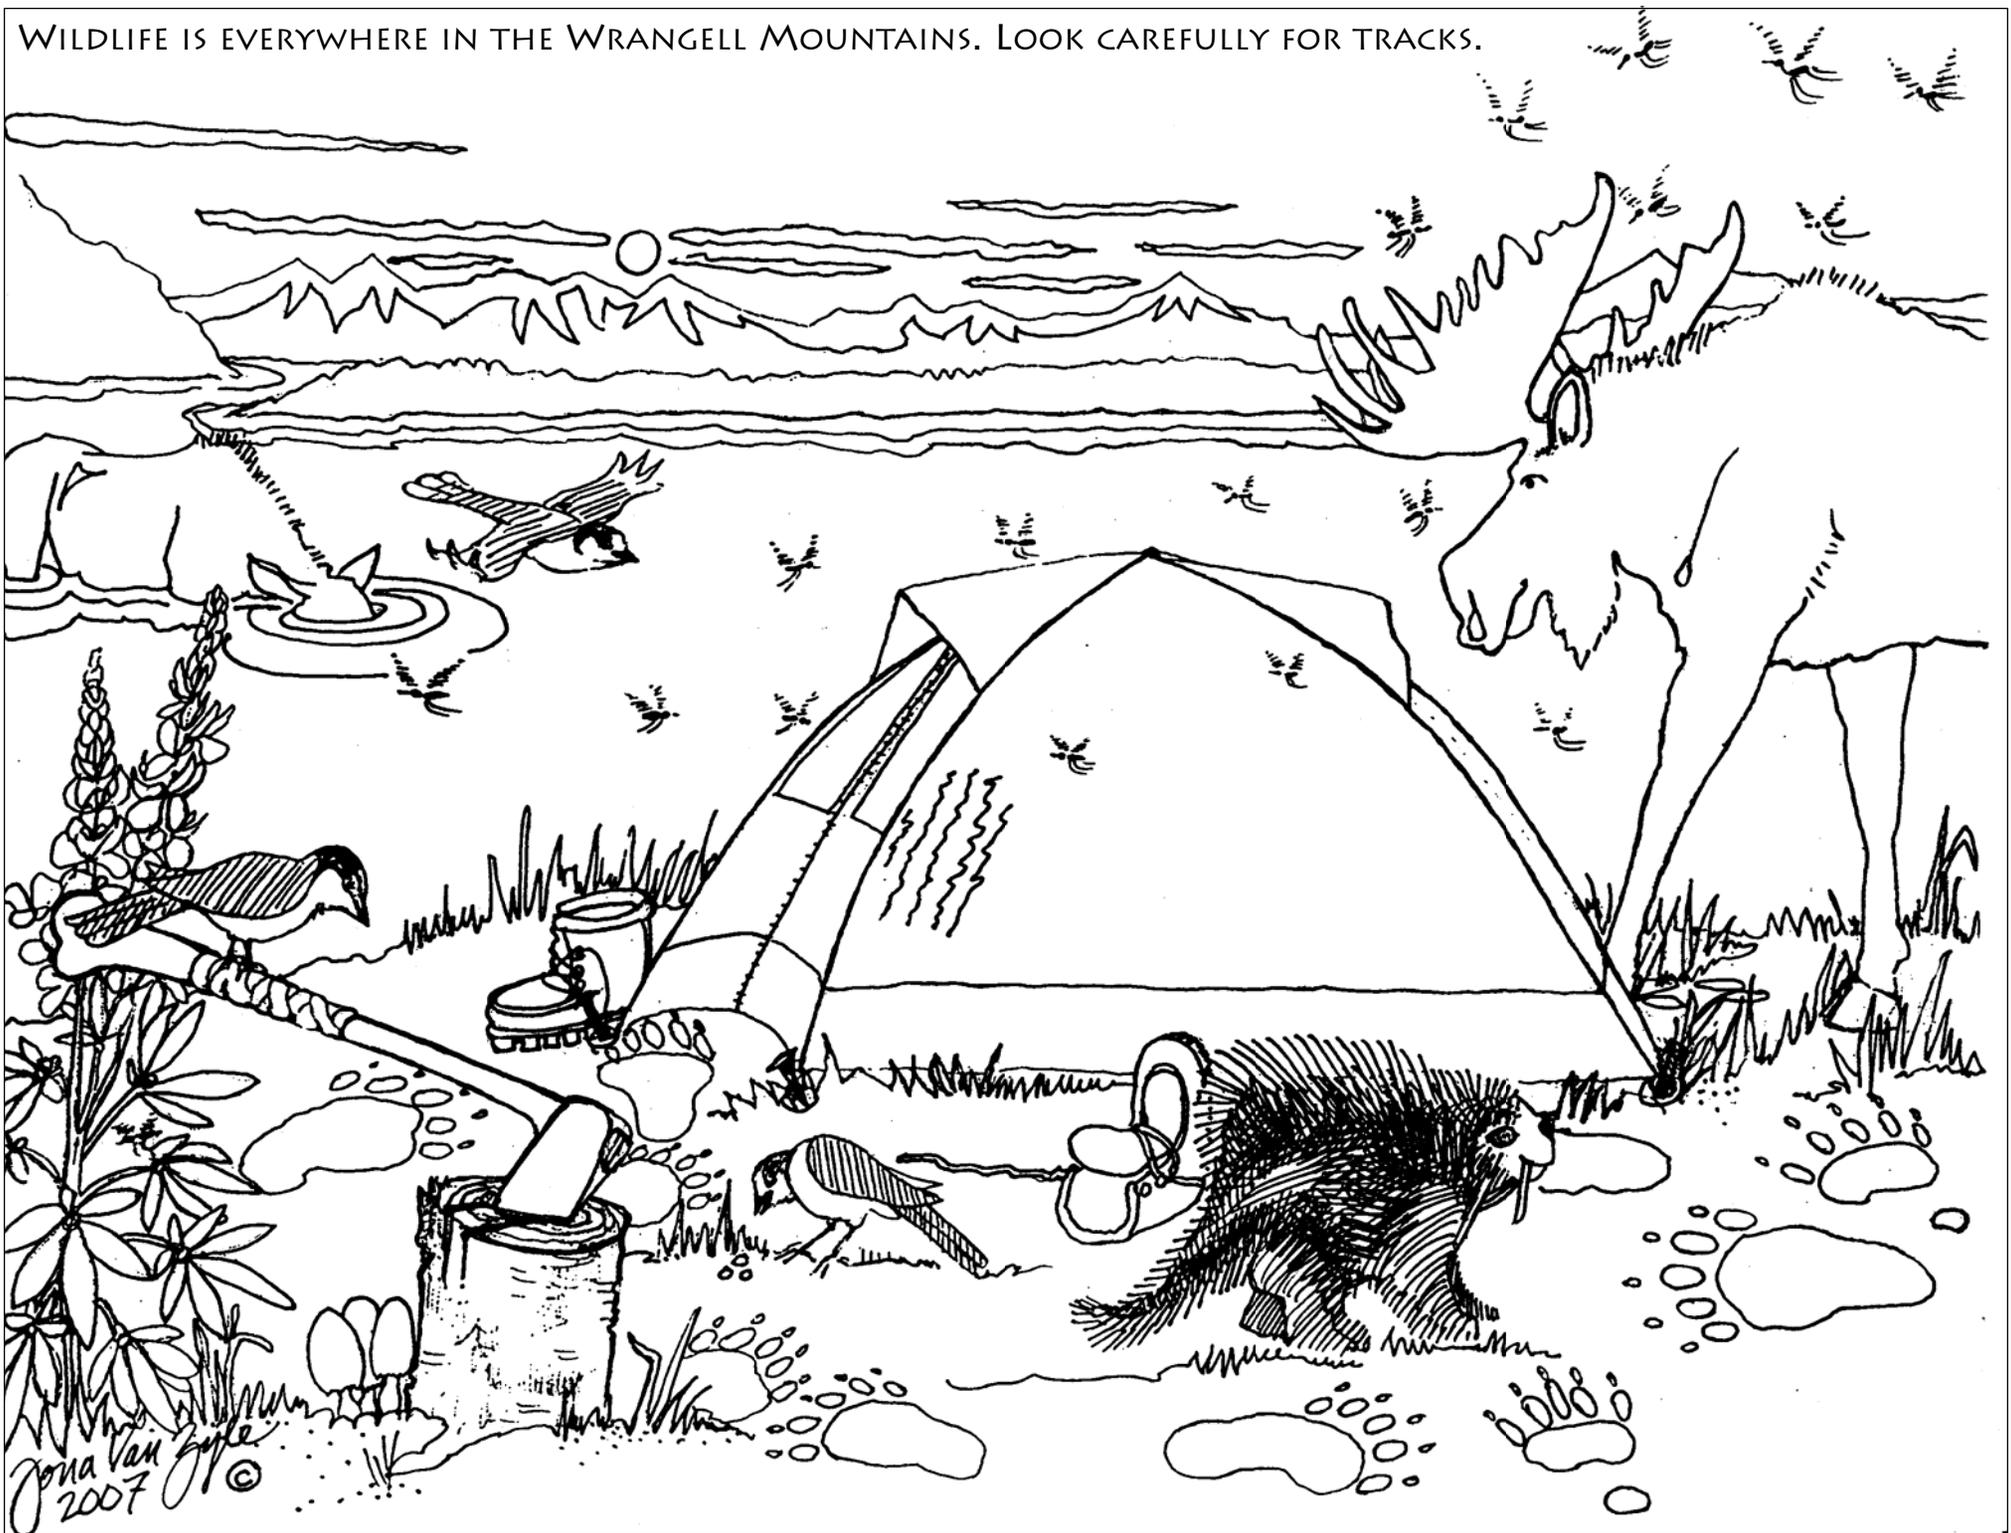

The beautiful and wild Copper River begins in Wrangell- St. Elias National Park.

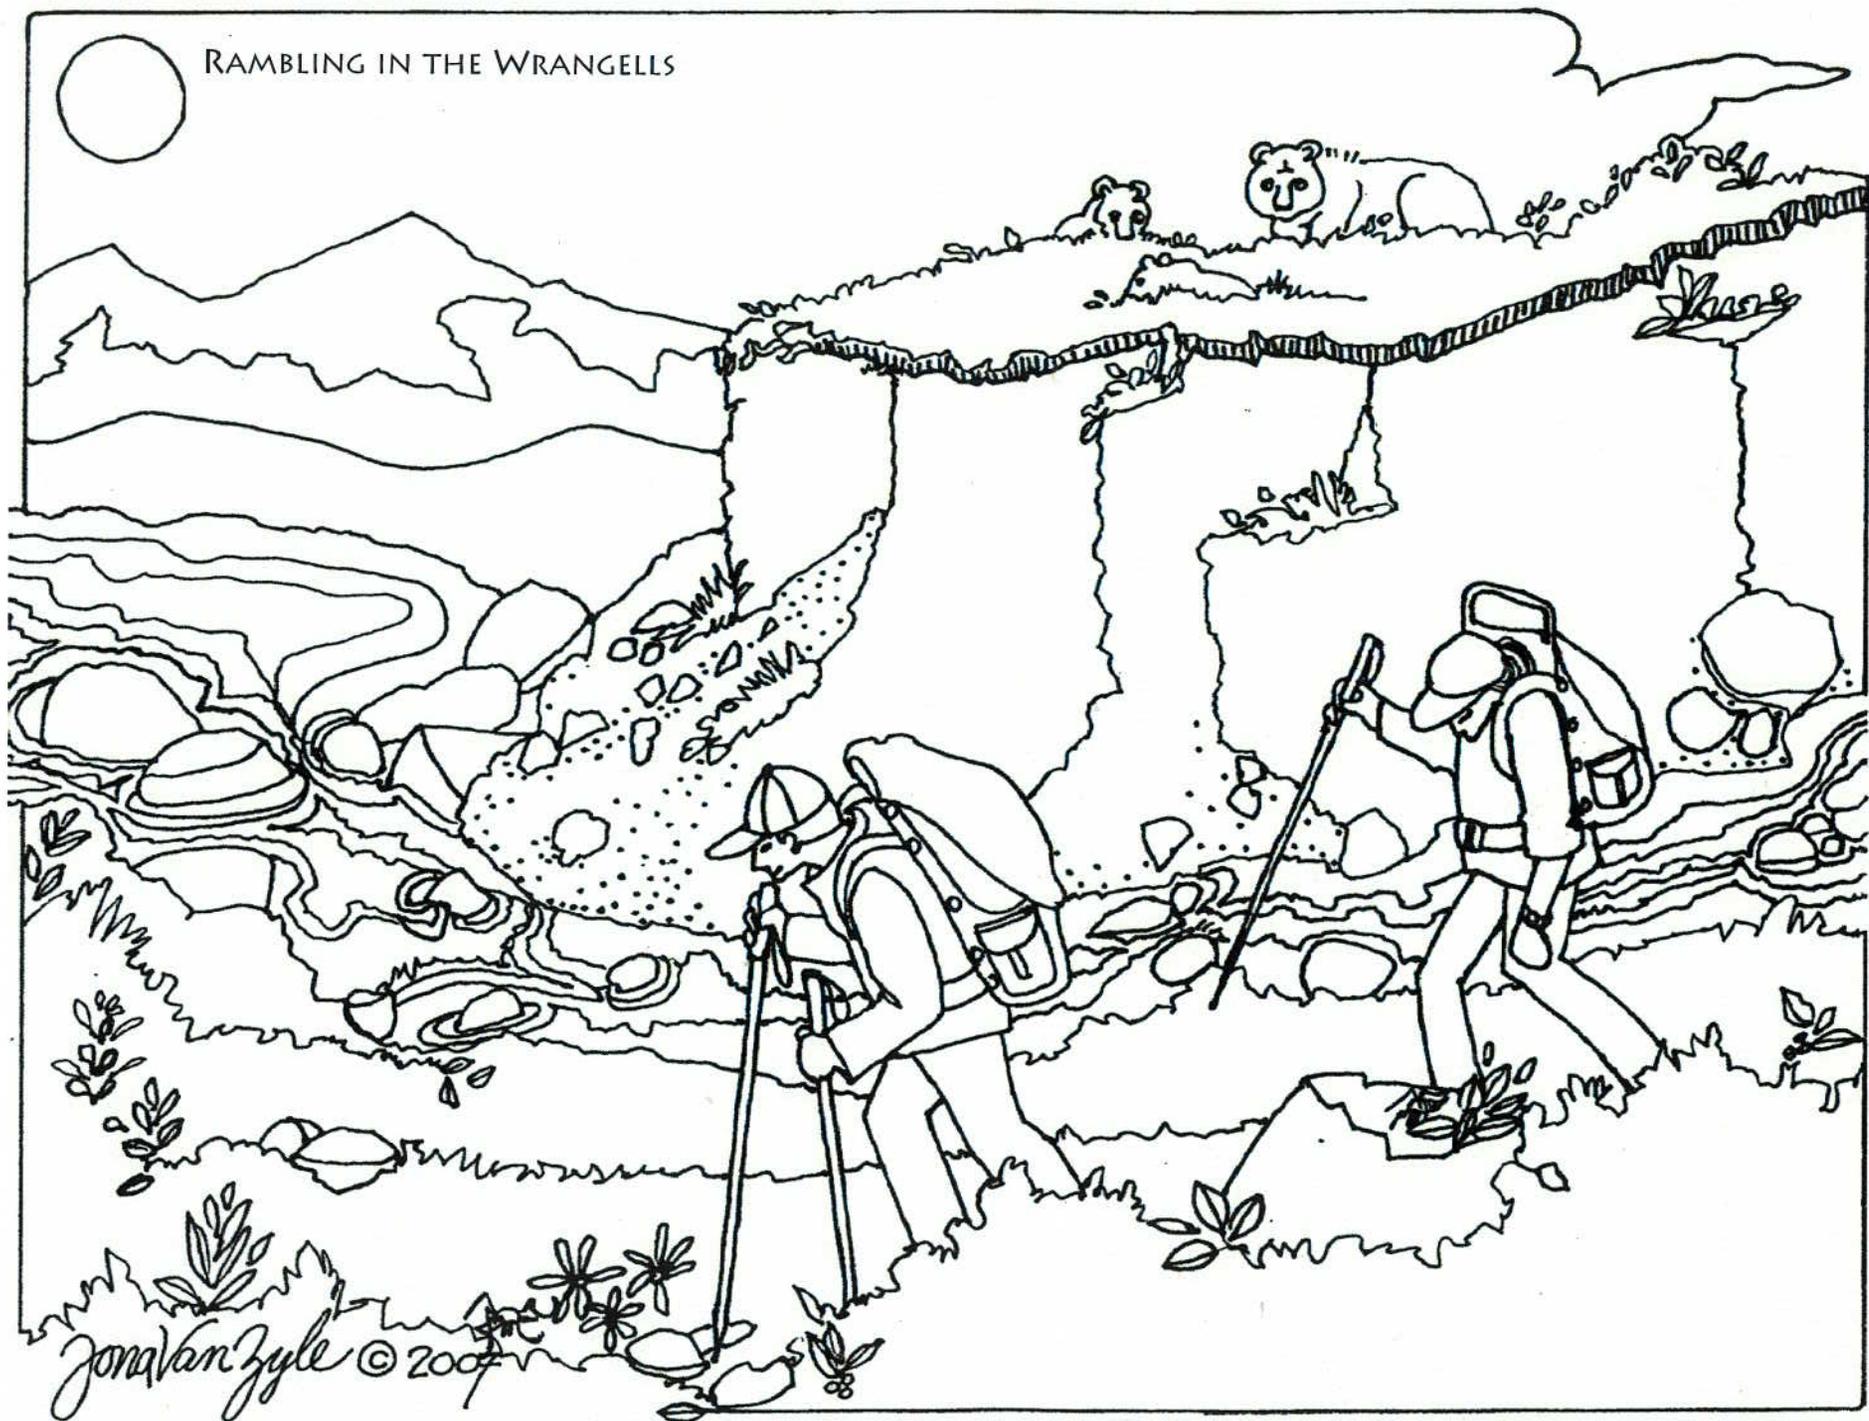

WILDLIFE IS EVERYWHERE IN THE WRANGELL MOUNTAINS. LOOK CAREFULLY FOR TRACKS.

RAMBLING IN THE WRANGELLS
